MFMA CIRCULAR 58: 2012/13 Budget and MTREF

Presenters: Vuyo Mbunge & Willem Voigt | Local Government Budget Analysis, National Treasury | 25 January 2012

national treasury

Department:
National Treasury
REPUBLIC OF SOUTH AFRICA

Highlights from circular 58

1. **It does not only cover just budgetary concepts** but also other accounting matters that also affects in-year reporting like the treatment of VAT on grant funding and retention monies withheld from invoices payable to contractors.
2. **Another circular is said to follow** just after the tabling of the national budget on 22 February 2012.
3. Due to the current world and local economic conditions, **revenues will be under pressure and hence all municipalities are requested to be conservative with projections** and tighten the operating expenditure.
4. **Other key focus areas per paragraph from the circular as follows;**

1.1 From the LG Expenditure Review

- Normal revenue management, eg. *accurate and reliable billings, collecting of debts, indigent management, and effective credit control, etc.*
- Pricing of services correctly, eg. *the full cost of services must be reflected in the price charged to consumers who can pay. In effect means services to be run not at a loss and municipalities not to be over generous on subsidies and rebates.*
- R&M as usual not to be marginalised at the expense of service delivery (especially service delivery assets).
- *Spending on non-priority items* eg. travel, luxury furniture, excessive catering, plus consultants, etc.

How do we track or monitor these in the absence of detailed projections per vote?

1.2 Creation of employment opportunities

"Municipalities **should not just employ more people without any reference to the level of staffing required to deliver effective services**, and what is financially sustainable over the medium term. The municipality ought to focus on maximizing its contribution to job creation by:

- Ensuring that service delivery and capital projects use labour intensive methods wherever appropriate,
- Ensuring that service providers use labour intensive approaches;
- Supporting labour intensive LED projects;
- Participating fully in the Extended Public Works Programme; and implementing interns programmes to provide young people with on-the-job training.

Also by all means try to avoid significant under spending on the capital budgets.

Report on the trends of the municipality's performance against the capital budgets of the past few years and indicate current performance to the IYM.

1.3 Allocation to LG sphere

The Medium Term Budget Policy Statement 2011 indicates that over the 2012 MTEF, transfers to local government grow by R5 billion....**but most of these funds are only going to be made available in 2013/14 and 2014/15.**

This means the baseline allocations to local government for 2012/13 are set to remain largely unchanged from the amounts published in the 2011 DORA.

The final allocations to municipalities will be announced in the 2012 Division of Revenue Bill, which will be tabled by the Minister of Finance on 22 February 2012. This information will be communicated to municipalities in a further Budget Circular for the 2012/13 financial year to be issued shortly after the tabling of the National Budget.

Municipalities MUST ensure that their tabled budgets reflect the equitable share and conditional grant allocations set out in the 2012 Division of Revenue Bill.

At this stage, municipalities are advised to use the indicative numbers for 2012/13 in the 2011 Division of Revenue Act to compile their budgets.

Under the list of funding and as per SA18, check if the totals are correct as per the 2012 DORB.

1.4 Procurement reforms and corruption

The usual SCM matters and current reforms...

2. Inflation forecasts

Municipalities are advised to budget for a 5 per cent cost-of-living increase adjustment, to be implemented with effect from July 2012.

Compare salary increases to this and source reasons for variances.

3. Revising rates, tariffs and other charges

When municipalities revise their rates, tariffs and other charges for their 2012/13 budgets and MTEF, they **need to take into account the labour and other input costs of services** provided by the municipality or entity, the need to ensure

financial sustainability. **Municipalities must justify in their budget documentation all increases in excess of the 6 per cent upper boundary of the South African Reserve Bank's inflation target.**

Compare the tariffs increases to the 6% and source reasons for variances if found.

3.1 NERSA process to approve tariffs

If NERSA only concludes its final determination for a municipality after 15 March, the municipality is not obliged to implement NERSA's final determination with effect from 1 July of the current year,

unless the Minister on good grounds approves otherwise. It is proposed that the only 'good grounds' that the Minister of Finance will consider for requiring compliance with a final determination issued by NERSA after 15 March, is where NERSA can show that a municipality has failed to: (criteria provided, we must know the 3 requirements)

Where a municipality can demonstrate that it has complied with the criteria and that NERSA did not issue a final determination before 15 March 2012, the municipality will be entitled to use the tariffs for 2012/13 set out in its original application to NERSA that must have been submitted by 30 January 2012.

Determine if the municipality did comply and the date NERSA concluded on the process.

3.2 Eskom bulk tariff increases

The Eskom price of bulk electricity supplied to municipalities will increase by 27.06 per cent on 1 July 2012.

Municipalities are urged to examine the cost structure of their electricity undertakings and apply to NERSA for electricity tariff increases that are cost reflective and ensure continued financial sustainability.

(NERSA formula is supported by NT, see circular and NERSA will be issuing its guideline tariff increase for municipalities in due course.

Check the average increase of electricity to be in line with this rate of 27.06%.

3.3 Introduction of inclining block tariffs (IBT) for electricity

National Treasury supports the introduction of IBTs for electricity by municipalities. **(but with noting all the conditions...)**

A municipality must structure its IBT tariff according to its own specific circumstances and ensure that it provides the necessary motivation and information to NERSA in its tariff application.

In this regard, municipalities need to pay careful attention to determining an appropriate level of cross-subsidisation between the different IBT blocks given the profile of its customer base, and also have regard to the price elasticity of the demand for electricity.

Determine if the municipality makes use of block tariffs and if cross-subsidisation is in place.

3.4 Water and sanitation tariffs must be cost-reflective

Municipalities are reminded to review the level and structure of their water and sanitation tariffs carefully with a **view to ensuring:**

Water and sanitation tariffs are on aggregate fully cost-reflective – including the bulk cost of water, the cost of maintenance and renewal of purification/treatment plants and network infrastructure, and the cost of new infrastructure;

All municipalities should aim to have appropriately structured, cost-reflective water and sanitation tariffs in place by 2014.

Municipalities **must put in place an appropriate strategy to limit water losses to acceptable levels.**

In this regard municipalities must ensure that water used by its own operations is charged to the relevant service, and not simply attributed to water 'losses'.

Municipalities not already calculating and reporting non-revenue water in accordance with the International Water Association (IWA) standards as required by the Department of Water Affairs (DWA) should contact DWA for assistance in this regard.

Mainly cost reflective tariffs, Distribution losses and Internal Charges. Distribution losses are monitored with the ratios from LG Accounting and we must determine if our municipality is using Internal Chg's or not.

3.5 Solid waste tariffs

Municipalities should aim to have appropriately structured, **cost-reflective solid waste tariffs in place by 2015**. The tariffs for solid waste management must take into account that it is **good practice to maintain a cash-backed reserve to cover the future costs of rehabilitating landfill sites**.

Municipalities are encouraged to explore alternative methodologies to manage solid waste, including recycling and incineration in plants that use the heat energy to generate electricity.

Mainly cost reflective tariffs and whether municipality have recycling projects and also cash baking reserves for the rehabilitation of landfill sites.

4. Funding choices and management issues

Given the on-going economic pressures referred to in section 1 above, ***the revenue side of municipal budgets will continue to be constrained, so municipalities will again need to make some very tough decisions on the expenditure side*** this year.

Priority ought to be given to: (list provided)

Municipalities must also ensure that their capital budgets reflect consistent efforts to address the backlogs in basic services and the renewal of the infrastructure of existing network services.

Check to what extent municipality budgeted for overtime, travelling, workshops, venues, overseas travel, etc. Analyse the capital budget to determine how much allocate to address backlogs.

4.1 Eliminating non-priority spending

Municipalities must pay special attention to controlling unnecessary spending on nice-to-have items and non-essential activities. The following examples of non-priority expenditure have been observed, and need to be eliminated: (list provided)

Same as under paragraph 1.1.

4.2 Three-year and one-year capital appropriations

To facilitate the delivery of large capital projects, section 16(3) of the MFMA allows a municipality to appropriate capital budgets for three financial years, i.e. the budget year and the following two years of the MTRF.

Municipalities are encouraged to use these provisions of the MFMA appropriately, and ensure they divide their capital budgets correctly between the 'multi-year expenditure' and the 'single-year expenditure' sections on Tables A5A and A5.

To facilitate the tracking of past multi-year appropriations in the preparation of the new budget the 'multi-year expenditure' section of Table A5A has been changed for this purpose. See/Explain:

Check if your municipality completed this sheet correctly and if it is the new version and check if the municipality had indeed prepared a multi-year capital budget.

4.3 Revaluations in terms of GRAP 17 and the treatment of depreciation in the budget

National Treasury has examined the budgeting and accounting treatment of depreciation resulting from the application of the 'valuation model' to assets in terms of GRAP 17 and ***determined that including such depreciation in the***

Budgeted Statements of Financial Performance artificially inflates the municipalities' actual depreciation and distorts the surplus/(deficit) calculation.

Therefore municipalities that have chosen the 'revaluation model' when implementing GRAP 17 must exclude the depreciation resulting from the revaluation of PPE when preparing their budgets and calculating any tariff increases.

To facilitate this, the depreciation detail required on Supporting Table SA1 has been modified. See/Explain:

The '**Total Depreciation and asset impairment**' taken through to Table A4 excludes '**Depreciation resulting from the revaluation of PPE**' associated with the adoption of the 'revaluation model' with the implementation of GRAP 17.

The **depreciation related to the 'cost model' of assets will thus still be taken through to Table A4 (Budgeted Statement of Financial Performance).**

As regards the treatment on the Statement of Financial Position: 'Depreciation resulting from the revaluation of PPE' must be debited against the 'Revaluation reserve account'.

First check if the municipality completed the correct version of the A-Schedules eg. version 2.4 which contain the new changes. Then determine which method was used to revalue PPE and check the surplus or deficit figures. Depreciation due to revaluation should be extracted from the total amount for depreciation.

4.4 Cash backing provided in capital replacement reserves

Each municipality needs to develop a strategy to fund infrastructure (both new and replacement) that takes into account internally generated funds, borrowing, development charges, transfers and any other relevant source of capital funding.

A municipality's capital replacement reserve must reflect the accumulated provision of internally generated funds designated to replace aging assets – it must therefore be fully cash-backed.

Each municipality needs to develop a policy providing for an appropriate level of cash-backing in its capital replacement reserve for the replacement of assets.

Check if the municipality has a long-term financial plan which might include a section on the funding of infrastructure, if not maybe a policy. Check if the CRR is cash backed, eg. what-ever amount is in the CRR should at least be in the cash and cash equivalents. Check if municipality have a cash-backing policy.

4.5 Budget and accounting treatment of VAT related to conditional grant expenditures

The accounting treatment of VAT in relation to conditional grant expenditures is dealt with in the VAT Guide 419.

The discussion below deals only with the issues and accounting treatment arising from the 'own revenue' provision in MFMA Circular 48, namely:

- i. How municipalities budget for conditional grants and the reclaimed VAT amounts?
- ii. How municipalities report on their expenditure performance against conditional grant allocations and the impact this has on the calculation of 'unspent' amounts that have to be returned to the National Revenue Fund?
- iii. How municipalities record the reclaimed VAT related to conditional grant expenditures in their Annual Financial Statements?

In addressing these issues, ***the point of departure is that ALL conditional grant allocations in the Division of Revenue Act are VAT inclusive***, i.e. national government has budgeted to pay the VAT inclusive price of the goods and services purchased by municipalities using conditional grant funds.

A municipality must show its full capital conditional grant allocations reflected in the DoRA under 'transfers and grants – capital' on Tables A2, A3, A4 and A5, so as to facilitate proper tracking of these allocations (i.e. a municipality must not split the capital conditional grants revenue up into 'capital' and 'operational' components in the Budgeted Statement of Financial Performance and Capital Budget);

A municipality must show the anticipated reclaimed VAT under 'current assets' on its Budgeted Statement of Financial Position (Table A6), which would flow through to the Budgeted Cash Flow (Table A7) (i.e. the reclaimed VAT does not get recorded as 'own revenue' on the Budgeted Statement of Financial Performance, but as a cash receipt on the Budgeted Cash Flow);

A municipality must report the VAT inclusive expenditure against ALL conditional grants for purposes of DoRA. If they fail to do so, the reclaimed input VAT will reflect as 'unspent' and the municipality will be expected to return such 'unspent' funds to the National Revenue Fund.

The accounting treatment of conditional grant spending in order to give effect to the 'own revenue' provision in MFMA Circular 48, **general ledger entries are provided to assist.**

Based on the above transaction, the input VAT that is reclaimed would ultimately form part of the municipality's cash and cash equivalents, which is a source of 'internally generated funds' that the municipality takes into consideration when compiling future budgets.

As a matter of good practice, municipalities should use these internally generated funds to either further fund their capital budget or to fund the repairs and maintenance of assets, especially those built using conditional grants.

Check if the municipality are budgeting correctly for the grant spending, if not clear determine the current practice.

4.6 Accounting treatment of retention fees and conditional grant funded projects

The issue of ***the accounting treatment of retention fees related to projects funded by conditional grants*** has arisen due to the impact the mismanagement of the practice has on:

- i. The level of conditional grant spending a municipality reports in terms of DoRA;
- ii. The impression that the 'retention fees' are unspent conditional grant funds which must be returned to the National Revenue Fund; and
- iii. The treatment of such funds when a municipality applies for the rollover of unspent conditional grant funds at the end of a financial year.

The correct accounting treatment of 'retention fees' (before they are paid) is shown **with the entries in the general ledger.**

When reporting on conditional grant spending, the municipality must report on the total value of the invoice due (including any retentions). This is because in accrual accounting the full invoice is regarded as expenditure incurred; it is only payment that has been delayed.

4.7 Districts transferring funds to local municipalities

The local government equitable share and many of the conditional grants are paid to municipalities in line with the *legal allocation of powers and functions* and not to the municipality that may actually be performing a particular basic service (water, electricity, sewerage and refuse removal).

Section 28 of the 2011 Division of Revenue Act provides that each category C municipality must indicate in its budget all allocations from its equitable share and conditional allocations to be transferred to each category B municipality within the category C municipality's area of jurisdiction (these transfers must be detailed on Table SA21, and reflected under 'transfers and grants' on Table A4).

Check to what extent grant funding goes via the District Municipalities. Thought was changed to go directly to LMs.

4.8 Benefits to mayors and councillors

regarded as an ***irregular expenditure*** and the municipality must recover that remuneration from the political office bearer or member.

The remuneration referred to above includes

i. any bonus, bursary, loan or advance; and

ii. any other benefit such as:

- the municipality giving or allocating laptops, notebooks, iPads or other gadgets to councillors and Mayors,
- cell phone allowances in excess of the limits set in the Public Office Bearers Act; and more, really just about good governance.

Through the councillor remuneration exercise try to determine what benefits councillors receive, otherwise enquire from the municipality.

4.9 Budget management issues dealt with in previous MFMA Circulars

Municipalities are reminded to refer to MFMA Circulars 48, 51, 54 and 55 with regards to the following issues:

1. **Mayor's discretionary funds and similar discretionary budget allocations** – National Treasury regards allocations that are not designated for a specific purpose to be bad practice and discourages them (refer to MFMA Circular 51).
2. **Unallocated ward allocations** – National Treasury does not regard this to be a good practice, because it means that the tabled budget does not reflect which ward projects are planned for purposes of public consultation and council approval (refer to MFMA Circular 51).
3. **New office buildings** – Municipalities are required to send detailed information to National Treasury if they are contemplating building new main office buildings (refer to MFMA Circular 51).
4. **Virement policies of municipalities** – Municipalities are reminded of the principles that must be incorporated into municipal virements policies (refer to MFMA Circular 51).
5. **Providing clean water and managing waste water** – Municipalities are reminded to include a section on 'Drinking water quality and waste water management' in their 2012/13 budget document supporting information (refer to MFMA Circular 54).
6. **Renewal and repairs and maintenance of existing assets** – Allocations to repairs and maintenance, and the renewal of existing infrastructure must be prioritised. Municipalities must provide detailed motivations in their budget documentation if allocations do not meet the benchmarks set out in MFMA Circular 55.
7. **Budgeting for an operating deficit** – Over the medium term, a municipality should budget for a moderate surplus on its Budgeted Statement of Financial Performance so as to be able to contribute to the funding of the Capital Budget. If the municipality's operating budget shows a deficit it is indicative that there are financial imbalances that need to be addressed (refer to MFMA Circular 55).
8. **Credit cards and debit cards linked to municipal bank accounts are not permitted** – On 02 August 2011 National Treasury issued a directive to all banks informing them that as from 01

September 2011 they are not allowed to issue credit cards or debit cards linked to municipal bank accounts (refer to MFMA Circular 55).

9. Municipal financial management (IT) systems – If a municipality is considering replacing or extending its financial management (IT) system, before it goes out to tender it must consult with the National Treasury in accordance with the process set out in MFMA Circular 57.

Check the current practises of the municipality against this list and report where still non-compliant.

5. Conditional transfers to municipalities

As indicated above, National Treasury will issue a further Budget Circular for the 2012/13 financial year shortly after the tabling of the National Budget on 22 February 2012. ***This Circular will deal with any new conditional grant issues and processes related to the management of conditional grants.***

5.1 Conditional grant issues dealt with in previous MFMA Circulars

Municipalities are reminded to refer to MFMA Circulars 48, 51, 54 and 55 with regards to the following issues:

1. Accounting treatment of conditional grants – Municipalities are reminded that in accordance with accrual accounting principles, conditional grants should only be treated as 'transfers recognized' revenue when the grant revenue has been 'earned' by incurring expenditure in accordance with the conditions of the grant.

2. VAT on conditional grants: SARS has issued a specific guide to assist municipalities meeting their VAT obligations – **VAT 419 Guide for Municipalities**. To assist municipalities accessing this guide it has been placed on the National Treasury website at:
<http://www.treasury.gov.za/legislation/mfma/guidelines/default.aspx>.

3. Interest received and reclaimed VAT in respect of conditional grants: Municipalities are reminded that in MFMA Circular 48, National Treasury determined that:

Interest received on conditional grant funds must be treated as 'own revenue' and its use by the municipality is not subject to any special conditions; and 'Reclaimed VAT' in respect of conditional grant expenditures must be treated as 'own revenue' and its use by the municipality is not subject to any special conditions (see paragraph 4.5 above, in this regard).

4. Appropriation of conditional grants that are rolled over – As soon as a municipality receives written approval from National Treasury that its unspent conditional grants have been rolled-over it may

proceed to spend such funds (refer to MFMA Circular 51 for other arrangements in this regard).

5. Pledging of conditional grant transfers – the 2012 Division of Revenue Bill will contain a provision that allows municipalities to pledge their conditional grants. The end date for the pledges is extended to 2014/15. The process of application as set out in MFMA Circular 51 remains unchanged.

6. Separate reporting for conditional grant roll-overs – National Treasury has put in place a separate template for municipalities to report on the spending of conditional grant roll-overs. Municipalities are reminded that conditional grant funds can only be rolled-over once, so if they remain unspent in the year in which they were rolled-over they **MUST** revert to the National Revenue Fund.

7. Payment schedule – National Treasury has instituted an automated payment system of transfers to municipalities in order to ensure appropriate safety checks are put in place. Only the National Treasury approved and verified primary banking details would be used for effecting transfers.

Check the current practises of the municipality against this list and report where still non-compliant.

6. The Municipal Budget and Reporting Regulations

National Treasury has released Version 2.4 of Schedule A1 (the Excel Formats). This version incorporates substantial changes (see Annexure A). **Therefore ALL municipalities MUST use this version for the preparation of their 2012/13 Budget and MTREF to be tabled on 31 March 2012.**

Check if your municipality submitted the budget schedules in the correct form, eg. version 2.4.

6.1 All municipalities must prepare budgets in accordance with the regulations

Municipalities are reminded that the regulations apply to all municipalities and municipal entities as from 1 July 2009. **All municipalities and municipal entities must prepare annual budgets, adjustments budgets and in-year reports for the 2012/13 financial year in accordance with the Municipal Budget and Reporting Regulations.**

Check if your municipality submitted the budget schedules in the correct form, eg. A-Schedules, MBRR formats.

6.2 The Dummy Budget Guide

To assist municipalities with the preparation of their budget documents, **National Treasury has issued a Dummy Budget Guide, consisting of the following four components:**

- 1. The MFMA Dummy Budget Guide**
- 2. The Annual Budget of Batho Pele City – the Annexure to the Guide**
- 3. The Schedule A1 for Batho Pele City – the 'Excel' budget format schedule**
- 4. The Schedule A1 Graphs and Figures Template.**

The Annual Budget of Batho Pele City is intended to be a template that municipal officials can use as a basis and guide for producing their own municipality's budget documents.

The Guide and associated templates and documents can be downloaded from:
<http://mfma.treasury.gov.za/Guidelines/Pages/default.aspx>

Note that National Treasury will be re-issuing all the above Dummy Budget Guide materials in due course so that they align to the changes that have been introduced by Version 2.4 of the Schedule A1.

For noting but PT officials can use it to assist with better understanding of how the Budget Schedules are put together.

6.3 Assistance with the compilation of budgets

If you require advice with the compilation of your budgets, *the budget documents or Schedule A1 please direct your enquiries as follows:*

Western Cape	Vuyo Mbunge Kevin Bell	012-315 5661 012-315 5725	Vuyo.Mbunge@treasury.gov.za Kevin.Bell@treasury.gov.za
--------------	---------------------------	------------------------------	---

6.4 End to the phasing in of formats and tables

This will be the third year that all municipalities are required to prepare their annual budgets in accordance with the Municipal Budget and Reporting Regulations. **National Treasury therefore expects all municipalities to provide a complete set of information in their annual budget tables, as well as the supporting tables (Schedule A1).**

NT and PTs, will carry out a compliance check and where municipalities have not provided complete information, the budgets will be referred back to the municipalities, and an appropriate letter will be addressed to the Mayor and municipal manager.

Municipal managers are reminded that the **annual budget must be accompanied by a 'quality certificate'** in accordance with the format set out in item 27 of Schedule A in the Municipal Budget and Reporting Regulations.

Check if municipality submitted the budget in the MBRR formats, A-Schedules and if Quality Certificate is submitted.

6.5 Consolidated budgets and reports for municipalities with entities

A municipality that has one or more municipal entities is required to produce:

An annual budget, adjustment budgets and monthly financial statements for the parent municipality in the relevant formats;

Municipalities are reminded, that with effect from 1 July 2011, municipalities that have municipal entities must submit their consolidated annual budget, consolidated adjustment budgets and consolidated quarterly financial information to the National Treasury Local Government Database.

In addition, the Schedule A1 that the municipality submits to National Treasury must be the consolidated budget for the municipality (plus entities) and not the budget of the parent municipality.

Check if municipality has entities, remember only where have the CONTROL eg. more than 50% of voting powers or shareholding. Where the case these requirements apply for both annual budget and IYMs.

6.6 Application of regulations to municipal entities

All municipal entities that provide normal municipal-type services (e.g. water, electricity, refuse removal, etc.) ***must comply with Chapter 3 of the Municipal Budget and Reporting Regulations.*** Municipalities that have entities that must comply with Chapter 3 of the regulations must produce the **consolidated tables** prescribed in Schedule A of the regulations. ***(repeat, covered above in previous 6.5)***

Municipalities that have entities that do not provide normal municipal services or where budgeted amounts are immaterial in relation to the parent municipality's budget and only comprise of funds transferred from the parent municipality may apply to National Treasury for an exemption in respect of those entities.

Applications must be sent to Jan Hattingh (e-mail: jan.hattingh@treasury.gov.za) by 01 March 2012. National Treasury will inform municipalities in writing on the outcome of these applications by 15 March 2012.

6.7 Municipal budgets and internal charges

This issue has been addressed extensively in MFMA Circulars 48 and 55. It has been noted that certain municipalities are still including internal charges on their budgets, monthly reports and submissions to the Local Government Database, thus overstating their revenues and expenditures.

To eliminate this bad practice, **National Treasury will refer all 2012/13 budgets, monthly financial statements and Local Government Database returns that include internal charges back to municipalities for correction.**

Repeat, check if current practice by the municipality and it needs further discussion with linkages to cost reflective tariffs and own consumption of water and electricity.

6.8 Distinguishing between cash and non-cash transfers and grants

A municipality can make cash 'transfers and grants' or non-cash 'transfers and grants' (often referred to as in-kind donations/grants) to organisations and individuals.

To facilitate more accurate analysis of the municipality's cash flow and financial position detail has been introduced on Supporting Tables SA1 and SA21 to reflect the cash and non-cash transfers and grants separately.

Note that:

The targeted provision of free basic services to indigent households must be treated as a non-cash transfer and grant;

Both cash and non-cash transfers and grants must be taken through to the Budgeted Statement of Financial Position on Table A4; and

Only the cash transfers and grants must be taken through to the Budgeted Cash Flow on Table A7.

Check if current practice by the municipality and check against this requirements.

6.9 The cost of free basic services versus the revenue cost of free services

On Table A10 municipalities are required to provide information on (i) the estimated cost of free basic services and (ii) the estimated revenue cost of free services. To ensure consistent reporting please note the following:

1. The estimated cost of free basic services:

- Covers only the free basic services according to national policy, i.e. 6 kl water, 50 kWh electricity, free sewerage and free weekly refuse removal;
- Must be the actual cost to the municipality and not the revenue cost to the municipality of providing these services;

- Includes the actual cost to the municipality of providing the free basic services to all households (which would be reflected as 'revenue foregone' on SA1); and
- Includes the actual cost to the municipality of providing free basic services to targeted households (which would be reflected as 'transfers and grants' on SA21).

2. The estimated revenue cost of free services:

- Covers all rates rebates, exemptions and discounts given to households and other customer groups either in general or specifically;
- Covers all free services or service discounts given to households and other customer groups in relation to services for which the municipality normally charges;
- Must be the revenue cost to the municipality of providing these rebates, discounts and free services;
- Includes the revenue cost to the municipality of providing the free basic services to households according to national policy; and
- Must not include the cost of debt write-offs.

The purpose of this information is to enable the council and municipality to get an understanding of the impact that 'discounts' and 'free services' have on the municipality's revenues, and therefore tailor its 'social package' appropriately, taking into consideration the equitable share funds provided to subsidise the provision of free basic services.

It also facilitates analysis of which customer groups benefit from a municipality's 'social package'.

Check if current practice by the municipality and check against this requirements.

6.10 Completion of service delivery information on Table A10

Table A10 is becoming an increasingly important source of information on actual service delivery and service delivery backlogs. ***A municipality that is the designated service authority for a particular service MUST report on the delivery status of that service to all households within its area, irrespective of whether the service is provided by a municipal entity, another municipality or an external mechanism.***

Where a district municipality is the designated service authority and a local municipality is the actual service provider, both the district and the local municipality must report on the delivery status of that service to all households within their respective areas.

This will provide a useful cross-check, and enable National Treasury and the provincial treasuries to evaluate whether the district is passing on an equitable portion of the equitable share and conditional grants it receives.

To improve the accuracy of the information the following changes have been introduced by Version 2.4:

i. Table A10 now draws its information from Supporting Table SA9, where the information has to be entered according to service provider, namely:

- Municipal in-house services
- Municipal entity services
- Services provided by 'external mechanism' – which includes municipalities that are providing services on behalf of another municipality in terms of a service level agreement.

ii. The 'total number of households' for each service must be the same as the total number of households in the municipality as reflected on Supporting Table A9. Four checks have been introduced on Table A10 to monitor this.

iii. Municipalities must enter the actual number of households – the rounding up to '000s has been removed.

National Treasury plans to prepare a special report on this service delivery information for Parliament in the second half of 2012. It is therefore important for each municipality to ensure its information is up-to-date and accurate.

6.11 MBRR issues dealt with in previous MFMA Circulars

Municipalities are reminded to refer to MFMA Circulars 48, 51, 54 and 55 with regards to the following issues:

1. Budgeting for revenue and 'revenue foregone' – **The 'realistically anticipated revenues to be collected' that must be reflected on the Budgeted Statement of Financial Performance (Tables A2, A3 and A4) must exclude 'revenue foregone'**. The definition of 'revenue foregone' and how it is distinguished from 'transfers and grants' is discussed in MFMA Circular 51.

2. Preparing and amending budget related policies – **Information on all budget related policies and any amendments to such policies must be included in the municipality's annual budget document** (refer to MFMA Circular 54).

3. 2012/13 MTREF Funding Compliance Assessment – **All municipalities are required to perform the funding compliance assessment** outlined in MFMA Funding Compliance Guideline and to include the relevant information outlined in MFMA Circular 55 in their 2012/13 budgets (refer to MFMA Circular 55).

7. Budget process and submissions for the 2012/13 MTREF

Municipalities are encouraged to continue their efforts to improve their budget processes based on the guidance provided in MFMA Circulars 10, 19, 28 and 31 as well as the new regulations. *Once more, municipalities are reminded that the IDP review process and the budget process should be combined into a single process.*

7.1 Submitting budget documentation and schedules for 2012/13

Accounting officers are reminded that: Section 22(b)(i) of the MFMA requires that ***immediately after an annual budget is tabled in a municipal council it must be submitted to the National Treasury and the relevant provincial treasury in both printed and electronic formats. The deadline for such submissions is Monday, 9 April 2012.***

Section 24(3) of the MFMA, read together with regulation 20(1), requires that ***the approved annual budget must be submitted within ten working days after the council has approved the annual budget.*** So if the council only approves the annual budget on 30 June 2010, the final date for such a submission is Thursday, 13 July 2012, otherwise an earlier date applies.

The municipal manager must submit: ***the budget documentation as set out in Schedule A of the Municipal Budget and Reporting Regulations, including the main Tables (A1 - A10) and all the supporting tables (SA1 – SA37) in both printed and electronic format; and the draft service delivery and budget implementation plan in both printed and electronic format; and in the case of approved budgets, the council resolution.***

Municipalities are required to send electronic versions to lgdocuments@treasury.gov.za. If the budget documents are too large to be sent via email, arrangements for them to be downloaded from the municipality's website must be made with Elsabe Rossouw (email: Elsabe.Rossouw@treasury.gov.za).

Municipalities are required to send printed submissions of their budget documents and council resolution to: For couriered documents

7.2 Budget reform returns to the Local Government Database for publication

For publication purposes, ***municipalities are still required to use the Budget Reform Returns to upload budget and monthly expenditure to the National Treasury Local Government Database. The old formats may not be used to submit 2012/13 budget information. All municipalities must migrate to using the aligned version of the electronic returns. All returns are to be sent to***

lgdatabase@treasury.gov.za. The new aligned electronic returns may be downloaded from National Treasury's website at the following link:
http://mfma.treasury.gov.za/Return_Forms/Pages/default.aspx.

7.3 Publication of budgets on municipal websites

In terms of section 75 of the MFMA ***all municipalities are required to publish their tabled budgets, adopted budgets, annual reports (containing audited annual financial statements) and other relevant information on the municipality's website.***

All relevant documents mentioned in this circular are available on the National Treasury website, <http://mfma.treasury.gov.za/Pages/Default.aspx>.

Municipalities are encouraged to visit it regularly as documents are regularly added / updated on the website.

Annexure A – Changes to Schedule A1 – the 'Excel formats'

As noted above, National Treasury has released Version 2.4 of Schedule A1 (the Excel Formats). It incorporates the following changes: See table:

WEST COAST DISTRICT MUNICIPALITY
